

School Improvement Plan Summary

North Haven School

Goals	Targets	Challenge of Practice	Success Criteria
Goal 1: To increase student achievement in mathematics R-6.	2022: 80% of year 3s to achieve NAPLAN Maths SEA. 30% of year 3s to achieve NAPLAN Maths HB. 80% of year 5s to achieve NAPLAN Maths SEA. 33% of year 5s to achieve NAPLAN Maths HB.	If we use high-yield pedagogical practices that differentiate the learning for all students, we will improve student achievement in mathematics R-6.	We will see each student use the learning pit language when discussing their next steps in learning. We will see each student articulate what and why they are learning when we talk to students about their learning task. We will see each student verbalising and recording their mathematical reasoning to efficiently solve mathematical tasks when we listen to students during reflection time. We will see students articulate their goals and next steps in learning when we are conferencing student work. We will see students demonstrating an understanding of learning intentions when we assess their summative work.
	2023:		
	2024:		
Goal 2: To increase student achievement in reading R-6.	2022: 75% of year 1s to achieve PSC benchmark. 84% of year 3s to achieve NAPLAN Reading SEA. 38% of year 3s to achieve NAPLAN Reading HB. 80% of year 5s to achieve NAPLAN Reading SEA. 40% of year 5s to achieve NAPLAN Reading HB	If we embed a whole school focus on the science of reading, we will improve student achievement in reading.	We will see students use decoding skills to read unknown words, when we listen to students read. We will see students use a variety of comprehension strategies when reading unknown text.
